

This map displays the geographical layout of Butte County, South Dakota, with a focus on census tracts and precincts. The county is bordered by Wyoming to the west, Montana to the north, and Nebraska to the east. Key features include the Belle Fourche Reservoir in the central-western part of the county. Major towns and cities are highlighted, including Belle Fourche, Newell, and St. Onge. The map is divided into numerous precincts, each labeled with a unique code. Notable precincts include 9677.01 and 9677.02 in the western part, and 9676 in the central-eastern part. The map also shows a network of roads and water bodies, providing a comprehensive view of the county's infrastructure and natural resources.

CENSUS TRACT CODE REVIEW MAP - LEGEND

SYMBOL	DESCRIPTION	SYMBOL	DESCRIPTION	SYMBOL	DESCRIPTION
	American Indian Reservation and/or OH-Reservation Trust Land		Interstate or U.S. Highway		MCD
	not labeled		College or University		March 1st
	NEW YORK 36		4WD Trail, Stairway, Alley, Walkway, or Ferry		
	ERIE 029		Rural County		
	Lee town		Nonresidential Building		
	MILFORD		Yosemite NP		
	Davis		Outside Subject Area		
	Cochiti		Inset Area		
	33.07				

Where state and county, and/or MCD boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

State and county names are followed by their FIPS code.

1 MCDs are symbolized and labeled only in the 12 strong MCD states: Connecticut, Maine, Massachusetts, Michigan, Minnesota, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, and Wisconsin.

2 Incorporated place name color corresponds to the incorporated place fill color.

3 The full census tract code consists of six digits with an implied decimal point between the fourth and fifth digits. For legibility on this map, the leading zeros have been stripped and the decimal point is shown. To translate a census tract number on the map to its full code, add as many zeros as needed to the left side of the number to reach six total digits and remove the decimal point before the last two digits.

Example: Census tract number on the map "33.07" represents census tract code "003307"

Due to space limitations, some road names, along with other feature and geography names on the map, may not be shown.

The plotted map scale is 1:104,368
